The screenshot shows a web browser window titled "Quality in Prescribing - Patient Details - Microsoft Internet Explorer". The address bar contains the URL: <http://10.255.10.59/qualityprescribing/details#patientid=427349205693782743&data=2C110807&crwid=9562582481927721624>. The page content includes a "Patient Details" section with a warning icon and the text "NRAD and aspirin". Below this, there are several options with checkboxes:

- Please, tick one or more of the following:**
- No follow up required
- Change drugs and write to inform patient
- Contact patient for a consultation in surgery
- Contact patient for a phone consultation
- Flag notes for next time patient attends/requests drug
- Other

On the left side, there is a "Medications" menu with the following items: Non-selective NSAID, COX-2 inh. NSAID, Aspirin, Cholesterol, Intake, ACE / ARB, Diuretic, and Oestrogen/protection. The bottom of the page shows a "Done" button and a copyright notice: "Copyright © 2011 Arbris Informatics Ltd | Third party services".
